Refrigerated  
Transport System  
TKD 7000

Service Log

Thank you for the confidence you are placing in us by buying your new Refrigerated Transport System. We will always try to ensure that you are satisfied with this product, which is of high technical and quality level.

The USER MANUAL which you received with the product contains important information for proper operation of the machine and your safety.

Every new Refrigerated Transport System TKD 7000 is delivered with a SERVICE LOG.

The inspection and maintenance work specified in the Service Log is necessary to ensure the safe function and maintain a high value level of the machine. It is a precondition for any warranty claim that all prescribed maintenance operations are carried out regularly and at the prescribed intervals. Please present the Service Log every time the authorized service center carries out work on your Refrigerated Transport System TKD 7000.

When you take delivery of the machine after maintenance or repair, make sure that the work which the center performed is entered in the Service Log, signed, and the center stamp affixed.

Complete entry of all service inspections is a precondition for any warranty claim.

If you want to sell the truck on which the Refrigerated Transport System TKD 7000 is installed, surrender the Service Log to the new owner.

We wish you safe driving.
